
Microsoft OneNote Tips

PULL TEXT FROM AN IMAGE

Paste an image into OneNote, then right click on the image and select **Copy Text From from Picture**. The text will be copied to your clipboard.

SHARE A NOTEBOOK

Go to **File**, click **Share** and then enter email addresses. Recipients don't need to have an Office 365 account, just a free Microsoft account.

CAPTURE AUDIO AND VIDEO

Go to **Insert**, then click **Record Audio** or **Record Video** and the timer will start. Click the stop button to finish.

EMBED AN EXCEL SPREADSHEET

Go to **Insert**, select **Spreadsheet** and then either **New** or **Existing Excel Spreadsheet**. For an existing spreadsheet, you can embed it, attach the file or insert a chart or table.

TAKE MEETING NOTES

Click **Meeting Details** in the **Home** menu to select a meeting, or open the meeting in Outlook and select **Meeting**, then **Meeting Notes**. OneNote will import all the meeting information from Outlook.

ONE CLICK EMAIL

Click **Email Page** in the **Home** menu. This does not share editing permissions for the original.

PASSWORD PROTECT A SECTION

Go to **Review**, click **Password** and then choose **Set Password** in the right menu pane.
